3rd Quarterly Report

## CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

*This report, for which the directors (the “Directors”) of Ahsay Backup Software Development Company Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.*

## MANAGEMENT DISCUSSION AND ANALYSIS

### FINANCIAL REVIEW

#### Overview

During the nine months ended 30 September 2015 and 2016, the Company and its subsidiaries (collectively, the "Group") recorded a revenue of approximately HK\$41.5 million and HK\$39.5 million respectively, representing a decrease of approximately 4.8%. The Group recorded a loss of approximately HK\$7.6 million for the nine months ended 30 September 2016 as compared to a profit of approximately HK\$51.6 million for the nine months ended 30 September 2015. The loss incurred by the Group was mainly due to a decrease in revenue from the Ahsay™ Backup Software as a result of increasing competition in backup software products; an increase in staff costs and related expenses; an increase in other expenses mainly from office rental expense and legal and professional fees and no profit was generated from discontinued operation for the nine months ended 30 September 2016.

#### Revenue

The Group's revenue principally represented income derived from software license sales and leasing, software upgrades and maintenance services, other services and sale of hardware devices. Revenue of approximately HK\$41.5 million and HK\$39.5 million was recognised for the nine months ended 30 September 2015 and 2016, respectively, which represents a decrease of approximately 4.8%.

The decrease for the nine months ended 30 September 2016 was mainly due to the decrease in revenue from (1) software license sales and leasing of approximately HK\$1.0 million and (2) software upgrades and maintenance service fee of approximately HK\$0.7 million as compared with the same period of 2015.

#### Other Income

Other income increased by approximately HK\$0.3 million or 150.0%, to approximately HK\$0.5 million for the nine months ended 30 September 2016 from approximately HK\$0.2 million for the nine months ended 30 September 2015. The increase for the nine months ended 30 September 2016 was mainly due to the increase of bank interest income and partially offset by the decrease in interest income from related parties as compared with the same period in 2015.

#### Other Gains and Losses

Other losses, net, were decreased by approximately HK\$0.7 million, which was mainly due to the fact that no loss was derived from the decrease in fair value of held for trading investments during the nine months ended 30 September 2016. The Group did not hold any held for trading investment after the Company became listed on GEM of the Stock Exchange on 8 October 2015 (the "Listing").

#### Staff Costs and Related Expenses

Staff costs and related expenses primarily comprised of salaries, performance bonuses, directors' fee, MPF contributions, directors' quarters, other staff welfare and other related expenses. Staff costs and related expenses increased by approximately HK\$10.6 million or 43.1%, to approximately HK\$35.2 million for the nine months ended 30 September 2016 from approximately HK\$24.6 million for the nine months ended 30 September 2015. The increase for the nine months ended 30 September 2016 was mainly due to the increase of total headcount of the Group and salaries increment as compared with the same period in 2015.

## Other Expenses

Other expenses primarily comprised of depreciation, advertising and marketing expenses, merchant credit card charges, legal and professional fees, office rental expense and other regular office expenses such as utilities. Other expenses increased by approximately HK\$4.7 million or 60.3%, to approximately HK\$12.5 million for the nine months ended 30 September 2016 from approximately HK\$7.8 million for the nine months ended 30 September 2015. The increase for the nine months ended 30 September 2016 was mainly due to increase in legal and professional fees and office rental expenses as compared with the same period in 2015.

## Finance Costs

Finance costs primarily represented interest expenses on bank borrowings. Finance costs decreased by approximately HK\$0.4 million or 57.1%, to approximately HK\$0.3 million for the nine months ended 30 September 2016 from approximately HK\$0.7 million for the nine months ended 30 September 2015. The decrease for the nine months ended 30 September 2016 was mainly due to repayment of certain bank loans during the group reorganisation (the "Group Reorganisation") stated in the Company's prospectus dated 25 September 2015.

## Income Tax Credit (Expense)

The Group recorded an income tax credit for the nine months ended 30 September 2016 as compared to an income tax expense for the nine months ended 30 September 2015. The recognition of an income tax credit was mainly due to the deferred tax assets of approximately HK\$0.5 million have been recognised in respect of unused tax losses available for offsetting against future taxable profit as at 30 September 2016.

## (Loss) Profit for the Period

The Group recorded a loss of approximately HK\$7.6 million for the nine months ended 30 September 2016 as compared to a profit of approximately HK\$51.6 million for the nine months ended 30 September 2015. For the nine months ended 30 September 2015, the Group would have recorded profit from continuing operation of approximately HK\$6.4 million after taking out the effect of a gain on disposal of property, plant and equipment of approximately HK\$53.5 million, the listing expenses of approximately HK\$11.1 million and the profit from discontinued operation of approximately HK\$2.8 million.

## Financial Position, Liquidity and Financial Resources

The Group adopts a prudent cash and financial management policy. In order to achieve better cost control and minimise the costs of funds, the Group's treasury activities are centralised and substantial cash is generally deposited with banks in Hong Kong and denominated mostly in Hong Kong dollars. Hong Kong dollars are pegged to United States dollars under the current policy of the Government of the Hong Kong Special Administrative Region. As the Group's cash and bank balances and borrowings were substantially denominated in Hong Kong dollars, risk in exchange rate fluctuation would not be material.

The Group has remained at a sound financial resource level. As at 30 September 2016, current assets (included cash and bank balances) of approximately HK\$101.0 million (31 December 2015: approximately HK\$111.2 million). After deducting the bank borrowings balances, the Group remained at a net cash position as at 30 September 2016. Before the Listing, the Group's operations were mainly financed by its shareholders' fund injections, loans and internal resources. Following the Listing, the Group's operations were mainly financed by internal resources and the Group's liquidity position became stronger and this enables the Group to expand in accordance with its business directions.

### **Charges on Assets of the Group**

As at 30 September 2016, there was no charge on assets of the Group (31 December 2015: nil).

### **Capital Structure**

The shares of the Company (the "Shares") were listed on GEM of the Stock Exchange on 8 October 2015. There has been of no change in the capital structure of the Group since then. The capital structure of the Company comprised ordinary shares only. As at 30 September 2016, the Company's issued share capital was HK\$20.0 million and the number of its issued ordinary Shares was 2,000,000,000 of HK\$0.01 each.

### **Gearing Ratio**

As at 30 September 2016, the Group's gearing ratio, calculated as interest-bearing liabilities divided by the total equity, was approximately 12.4% (31 December 2015: approximately 12.5%). The decrease is mainly attributable to the repayment of bank loan and has partially offset by the total comprehensive expenses recognised during the nine months ended 30 September 2016.

### **Capital Commitments and Contingent Liabilities**

As at 30 September 2016, the Group did not have any significant capital commitment (31 December 2015: nil) and contingent liability (31 December 2015: nil). The Group did not have plans for material investments or purchases of capital assets in near term.

### **Material Acquisitions and Disposals**

The Group did not have any material acquisition and disposal during the nine months ended 30 September 2015 and 2016.

## BUSINESS REVIEW

### Existing Principle Business

The Group is an online backup software developer based in Hong Kong, which focuses on providing self-developed backup software products and services to customers. Developed in Hong Kong, the Group's backup software products are equipped with multi-lingual, multi-platform and multi-application features built-in. One of the Group's backup software products, the Ahsay™ Backup Software, supports more than 30 languages and dialects, and can be used on various platforms and with different software applications.

Data has become a new essential resource for businesses. The global backup software market and demand of small and medium-sized enterprises ("SMEs") for backup software products are expected to steadily increase in coming years. As a market leader in providing online backup software solutions to SMEs worldwide, the Group plans to increase its market share in the backup software sector by focusing on improving products and services, particularly, those which support both private and public cloud technology.

Currently, all of the Group's backup software products and (software upgrading and maintenance) services are mainly sold or leased or ordered by customers via the Group's sales websites. In order to drive growth of its backup business worldwide, the Group has started to add distribution channels to help it secure more customers. Since the second quarter of 2016, the Group has been strategically expanding the market share in Asia Pacific. Ahsay Systems Corporation Limited ("Ahsay HK"), an indirect wholly-owned subsidiary of the Company, signed a distribution agreement with eSTORAGE Technology Corp.\* (資享科技股份有限公司), a company incorporated in Taiwan, the Republic of China and HM SYSTEMS CO., LTD., a company incorporated in the Republic of Korea, in April 2016 and June 2016, respectively. The appointment of distributors has enabled the Group to actively reach potential clients in various markets.

Facing keen competition in the global backup software market, the Group will continue to uphold the principle of "customer-oriented" in operating its businesses. It will focus on product development and refinement, as well as offering remarkable customer services to cater to changing market needs. Appropriate adjustments will be made to ensure products and value added services, the best at all time, are available to customers. The Group believes that such effort can help it strengthen customer relationship and will ultimately improve competitiveness.

As at the date of this report, the beta version of the Platform has been launched.

### Introduction

We have reviewed the interim financial information of Ahsay Backup Software Development Company Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 12 to 20, which comprises the condensed consolidated statement of profit or loss and other comprehensive income and condensed consolidated statement of changes in equity for the nine months ended 30 September 2016, and certain explanatory notes. The Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof. The directors of the Company are responsible for the preparation and presentation of this interim financial information in accordance with the basis of preparation as set out in note 2 to the interim financial information. Our responsibility is to express a conclusion on this interim financial information based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

### Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*" issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with the basis of preparation as set out in note 2 to the interim financial information.

Without qualifying our review conclusion, we draw attention to the fact that the condensed consolidated statements of profit or loss and other comprehensive income, condensed consolidated statements of changes in equity for the three months ended 30 September 2015 and the relevant explanatory notes included in this interim financial information have not been reviewed in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants.
