FINANCIAL REVIEW

Overview

During the six months ended 30 June 2023 and 2022, the Group recorded revenues of approximately HK\$21.2 million and HK\$23.0 million respectively, representing a decrease of approximately 7.8%. The Group recorded a profit attributable to owners of the parent of approximately HK\$2.1 million for the six months ended 30 June 2023 as compared to a loss of approximately HK\$1.1 million for the corresponding period in 2022.

The turnaround from loss to profit for the six months ended 30 June 2023 was mainly attributable to (i) the decrease in staff costs resulting from the implementation of cost control measures, which included team restructuring; and the (ii) recognition of a one-off gain on deconsolidation of a subsidiary, which was partially offset by the decrease in revenue derived from the Group's online backup business as affected by the sluggish recovery of business demand during the period.

Revenue

The Group's revenue was principally derived from income from software license sales and leasing, software upgrades and maintenance services, subscription fees and other services. Revenue of approximately HK\$21.2 million and HK\$23.0 million were recognised for the six months ended 30 June 2023 and 2022 respectively, representing a decrease of approximately 7.8%.

The decrease in revenue for the six months ended 30 June 2023 was mainly due to the decrease in revenue derived from the Group's online backup business as affected by (i) the sluggish recovery of business demand as a result of overall weak global economy; (ii) the change of customer segmentation with reduced bulk purchase; and (iii) keen competition in the global online backup software market, which was partially offset by the increase in revenue derived from increase in subscription of the Group's information platform compared with the corresponding period in 2022.

Other Income

Other income increased by approximately HK\$0.1 million or 11.1%, to approximately HK\$1.0 million for the six months ended 30 June 2023 from approximately HK\$0.9 million for the six months ended 30 June 2022. The increase in other income for the six months ended 30 June 2023 was mainly due to the increase in bank interest income as a result of the increase in the average rate of time deposits during the period; which was partially offset by the absence of subsidies granted to the Group under the Employee Support Scheme launched by the Government of the Hong Kong Special Administrative Region as compared with the corresponding period in 2022.

Other Gains (Losses), net

Other gains, net increased by approximately HK\$2.5 million, to approximately HK\$2.1 million for the six months ended 30 June 2023 from other losses, net of approximately HK\$0.4 million for the six months ended 30 June 2022. The increase in other gains for the six months ended 30 June 2023 was mainly due to the recognition of a one-off gain on deconsolidation of a subsidiary during the period as compared with the corresponding period in 2022.

Staff Costs and Related Expenses

Staff costs and related expenses primarily comprised salaries, performance bonuses, directors' fee, mandatory provident fund contributions, staff welfare and other related expenses. Staff costs and related expenses decreased by approximately HK\$2.4 million or 14.0%, to approximately HK\$14.8 million for the six months ended 30 June 2023 from approximately HK\$17.2 million for the six months ended 30 June 2022.

The decrease in staff costs and related expenses for the six months ended 30 June 2023 was mainly due to the implementation of cost control measures during the period, including team restructuring of the Group as compared with the corresponding period in 2022.

Other Expenses

Other expenses primarily comprised of depreciation, advertising and marketing expenses, merchant credit card charges, legal and professional fees and other regular office expenses such as utilities. Other expenses increased by approximately HK\$0.2 million or 2.8%, to approximately HK\$7.3 million for the six months ended 30 June 2023 from approximately HK\$7.1 million for the six months ended 30 June 2022.

The increase in other expenses was mainly due to the net effect of the increase in content acquisition cost in order to enrich the content of KINBOY application and the decrease in other operating expenses including software license and motor vehicle expenses as compared with the corresponding period in 2022.

Profit (Loss) for the Period

The Group recorded a profit of approximately HK\$2.0 million for the six months ended 30 June 2023 as compared to a loss of approximately HK\$1.3 million for the corresponding period in 2022. The profit for the period consisted of an approximately HK\$2.1 million segment loss from the Group's online backup software and related services segment, a segment profit of approximately HK\$1.0 million generated by the information platform segment and unallocated income of approximately HK\$3.1 million which included a one-off gain on deconsolidation of a subsidiary amounting to approximately HK\$2.1 million.

Adjustment related to the unaudited condensed consolidated financial information for the three months ended 31 March 2023

The adjustment has no effect on the total comprehensive income for the period ended 31 March 2023 previously presented except for other gains, net, profit for the period and profit for the period attributable to owners of the parent for the three months ended were increased by approximately HK\$0.7 million, to approximately HK\$2.0 million, HK\$1.8 million and HK\$1.8 million, respectively; and other comprehensive income for the three months ended 31 March 2023 was decreased by approximately HK\$0.7 million to approximately HK\$0.2 million.

In order to achieve better cost control and minimise the costs of funds, the Group's treasury activities are centralised and substantial amount of cash denominated mainly in Hong Kong dollars ("HK\$") and United States Dollar ("US\$") are generally deposited with licensed banks in Hong Kong and Singapore. As the Group's cash and bank balances are substantially denominated in HK\$ and US\$, risk in exchange rate fluctuation would not be material.

The Group remained at a net cash position as at 30 June 2023 and 31 December 2022, respectively. Based on the amount of liquid assets on hand, the management is of the view that the Group has sufficient financial resources to meet its ongoing operational requirements.

BUSINESS REVIEW

Over the past few years, the Group has faced a challenging economic environment, with external factors such as increased competition and changing market demand continually impacting our business especially online backup software segment. As a result, revenue from the Group's online backup software and its related services decreased by approximately HK\$2.4 million or 11.6% from approximately HK\$20.6 million for the six months ended 30 June 2022 to approximately HK\$18.2 million for the six months ended 30 June 2023.

On the other side, the revenue derived from the Group's information platform increased by approximately HK\$0.5 million or 20.8% from approximately HK\$2.4 million for the six months ended 30 June 2022 to approximately HK\$2.9 million for the six months ended 30 June 2023.

Total revenue of the Group decreased by approximately HK\$1.8 million or 7.8% from approximately HK\$23.0 million for the six months ended 30 June 2022 to approximately HK\$21.2 million for the six months ended 30 June 2023.

In response to the uncertainties, we have embarked on comprehensive cost-saving measures, including team and corporate restructuring, to reduce operational cost and improve competitiveness. Despite the difficulties, our employees have shown remarkable unity and dedication, pulling together to support each other and our customers. We also intensified our communication with customers and focused on enhancing product features to meet their evolving needs. As a result of these efforts, we have seen a gradual improvement in our overall performance, which gives us confidence that we can face future challenges with determination.

OUTLOOK

Core Backup Business

Our current version of Ahsay™ Backup Software — Version 9 ("Version 9") launched in January 2022 is an advanced client-server based on-premises and cloud backup software solution for businesses and managed service providers ("MSPs").

In terms of the major enhancement of Version 9, the "In-File Data" feature was replaced with the new feature "Deduplication", which is part of the backup process that identifies and eliminates duplicate copies of repeating data, storing the data only once, in order to save storage space. Deduplication plays a major role in managing storage space, particularly when performed over large volumes of data. Such solution can be deployed within a company to back up all virtual machines or physical servers. MSPs can also use this software solution to offer secure managed backup service to their clients.

Version 9 comes with a web based central management console that allows a system administrator to easily manage the whole backup system through any web browser. It supports various features such as Microsoft 365 Backup including SharePoint Online, Outlook, OneDrive etc. In addition to the above, the backup and restoration of Microsoft Teams are currently supported.

With the enhancement of functionalities, we believe Version 9 improved user experience for our customers. We will continue to pay close attention to the changes in the market and the direction for future development.

Information Platform

The Group has developed information platforms, named KINBOY (堅仔) which is an information analysis tool and KINTIPS (堅料) for information sharing. Those platforms are mainly deployed on mobile-application.

KINBOY is an all-in-one platform for horse racing information, which provides users an alternative way to access information electronically. The subscription service is tiered and structured such that free members can access the latest race cards, results and dividends, entries lists, chance table of horse racing and other detailed information such as finesse of horses, sharp moves, odds trend and forecast of first two races for catch-up viewing; while paid members can access detailed information including "Cloud Data" for full day races. "Cloud Data" being launched during 2022 has collected and combined information from overseas and The Hong Kong Jockey Club for computer analysis. With the latest information and analysis, paid members would gain an in-depth insight into horse racing.

Apart from KINBOY, minimal revenue contributions are derived from information sharing platform via KINTIPS; which is a platform designed to allow information providers and subscribers to share information via its website and mobile application.

Mobile applications have become increasingly popular and the general populace are accustomed to using mobile devices as the new norm. Compared to traditional newspapers, moblie applications offer several advantages including flexibility and convenience. Also, multimedia features of KINBOY such as videos of tipsters make users a more engaging and interactive way to consume news and information. With up-to-date information on horse racing, more and more people downloaded KINBOY as a way to replace traditional newspapers to gain access to horse racing information. The management is expecting a stable growth for the information platform segment in the future.

18. NOTE TO CONDENSED CONSOLIDATED STATEMENT OF CASH FLOWS

Deconsolidation of a subsidiary

In February 2023, the Group entered into an agreement ("Shareholders Agreement") with other shareholders of Ahsay Korea Co., Ltd. ("Ahsay Korea"), a 52.17%-owned subsidiary of the Company, to transfer the control of Ahsay Korea to other shareholders. Pursuant to the Shareholders Agreement, the Group ceased its rights to appoint any director and chairman of Ahsay Korea and ceased its rights to exercise any vote on Ahsay Korea. The Group's representatives had also resigned from the board of directors of Ahsay Korea. In the opinion of the directors, the Group has lost control over Ahsay Korea since then as the Group no longer has the ability to affect the returns of Ahsay Korea through its power over Ahsay Korea. Accordingly, Ahsay Korea ceased to be a subsidiary of the Group and was recognised as equity investment at fair value through other comprehensive income.

The assets and liabilities of Ahsay Korea as at the date of loss of control were as follows:

19. FAIR VALUE OF FINANCIAL INSTRUMENTS

At the end of the reporting period, the carrying amounts of the Group's financial assets and liabilities reasonably approximated to their fair values.

Management has assessed that the fair values of financial assets included in trade and other receivables/deposits paid, bank balances and cash, financial liabilities included in other payables and accruals and other borrowings approximate to their carrying amounts largely due to the short term maturities of these instruments or the effect of discounting is not material.
